

The image displays a 100x100 grid of dots. The dots are arranged in a pattern that suggests a banded structure, with higher density of dots along the main diagonal and some off-diagonal elements, typical of a discretized differential equation system. The dots are arranged in a pattern that suggests a banded structure, with higher density of dots along the main diagonal and some off-diagonal elements, typical of a discretized differential equation system.

A 10x10 grid of 100 small clusters of black dots, each cluster representing a different number from 0 to 99. The clusters are arranged in a grid where the first column shows numbers 0-9, the second column shows 10-19, and so on, up to the tenth column showing 90-99. Each cluster is a unique pattern of dots, with some numbers having a single dot and others having many dots in various arrangements.
