

A 2x12 grid of dots forming a stylized representation of the word "MATHS" in a dot-matrix font. The letters are constructed as follows: 'M' (3x3), 'A' (3x3), 'T' (3x3), 'H' (3x3), 'S' (3x3), and 'S' (3x3). The grid is 2 rows high and 12 columns wide.

The image shows four 3x3 dot patterns arranged horizontally. The first pattern represents the digit '1' with dots at (1,1), (1,3), (2,2), (3,1), and (3,3). The second pattern represents the digit '2' with dots at (1,1), (1,3), (2,2), (3,2), and (3,3). The third pattern represents the digit '3' with dots at (1,1), (1,3), (2,2), (2,3), and (3,3). The fourth pattern represents the digit '4' with dots at (1,2), (1,3), (2,2), (2,3), and (3,3).

A black and white dot pattern forming a dense, abstract shape. The pattern is composed of numerous small black dots arranged in a way that suggests a stylized letter 'A' or a cluster of dots. The dots are distributed across the page, with some areas being more densely packed than others. The overall effect is a textured, high-contrast visual element.

A 10x10 grid of 100 small clusters of black dots, each cluster representing a different number from 0 to 99. The clusters are arranged in a grid where the first row shows numbers 0-9, the second row 10-19, and so on, up to the tenth row showing 90-99. Each cluster is a unique arrangement of dots, with the number of dots corresponding to the value it represents.
