

A large grid of 100 rows and 100 columns of black dots on a white background. The dots are arranged in a sparse, irregular pattern, with many cells being empty. The dots are small and black, and the background is white.

A 4x10 grid of 40 small clusters of black dots, each forming a different abstract pattern. The patterns vary in complexity, from simple pairs to larger, more intricate shapes.

A 3x10 grid of 30 small clusters of black dots, each forming a different abstract pattern. The patterns vary in complexity and shape, ranging from simple vertical lines to more intricate, interconnected shapes.

The figure consists of 10 diagrams arranged in two rows of five. Each diagram shows a pattern of black dots on a grid. The pattern starts as a small cluster of dots in the first diagram and grows into a complex, branching structure by the tenth diagram. The dots are arranged in a way that suggests a process of growth or evolution, with new dots appearing at various points along the edges of the existing structure.
