

A 20x20 grid of black dots on a white background. The dots are arranged in a sparse, irregular pattern that roughly forms a large, stylized letter 'A' or a similar abstract shape. The pattern is denser in the center and sparser towards the edges. The dots are small and black, set against a plain white background. The overall shape is roughly triangular, with a wider base and a narrower top. The dots are scattered within this general outline, creating a textured, pixelated appearance.

A 3x3 grid of dots. The top row has two dots, the middle row has two dots, and the bottom row has two dots. The dot at the bottom-left position is missing, leaving a gap.

A 10x10 grid of 100 small clusters of black dots, each cluster representing a different number from 0 to 99. The clusters are arranged in a grid where the first column shows numbers 0-9, the second column shows 10-19, and so on, up to the tenth column showing 90-99. Each cluster is a unique pattern of dots, with some numbers having a single dot and others having many dots arranged in various shapes.

The image displays a 4x4 grid of 16 small images. Each image shows a unique arrangement of black dots on a white background. The patterns vary significantly, ranging from simple vertical or horizontal lines to more complex, irregular clusters and shapes. Some images show dots forming recognizable letters or symbols, while others are abstract. The overall effect is a collection of diverse dot patterns arranged in a structured grid.

A 3x3 grid of dots. The top row has two dots, the middle row has two dots, and the bottom row has two dots. The dot in the top-right position is missing.
