

The image displays a 12x12 grid of black dots on a white background. The dots are arranged in a pattern that suggests a banded or block-like structure, with some non-zero entries scattered throughout the grid. The distribution of dots is sparse, with many empty cells. The pattern of dots is symmetric across the main diagonal, indicating a symmetric matrix. The dots are arranged in a way that suggests a banded or block-like structure, with some non-zero entries scattered throughout the grid.

Age Group	Male (Black Dots)	Female (White Dots)
18-24	10	10
25-34	15	15
35-44	20	20
45-54	25	25
55-64	30	30
65-74	40	40
75-84	35	35
85-94	20	20

[illegible]

A large grid of 100 rows and 100 columns of black dots on a white background. The dots are arranged in a sparse, irregular pattern, with some rows having more dots than others. The dots are small and black, and the background is white. The pattern is dense in some areas and sparse in others, creating a complex, abstract visual structure.

[illegible]

Figure 1 displays a 2x12 grid of dot patterns. The top row contains patterns for digits 0 through 9, and the bottom row contains patterns for letters A through Z. Each pattern is a sparse arrangement of dots on a grid, representing a specific character in a dot-based font.

[illegible]

A 3x3 grid of dots. The top row has three dots. The middle row has three dots. The bottom row has two dots, with the leftmost position empty.
