

The image displays a 6x6 grid of 36 small dot patterns. Each pattern is a 6-dot grid, similar to the one in the first image, but with different combinations of dots present. The patterns are arranged in 6 rows and 6 columns, with each row containing 6 patterns and each column containing 6 patterns. The patterns are variations of the 6-dot grid shown in the first image, representing all possible combinations of 6 binary digits (0 or 1).
