

A large grid of 100 rows and 100 columns of black dots on a white background. The dots are arranged in a dense, somewhat irregular pattern, with some rows having more dots than others. The dots are small and black, and they are distributed across the entire grid area. The pattern of dots is not uniform, with some areas having higher concentrations of dots than others. The dots are arranged in a way that suggests a random or semi-random distribution, but there are some visible trends and clusters. The overall effect is a complex, textured pattern of black dots on a white background.
