

This image displays a 20x100 grid of Braille characters. The grid is organized into 20 rows and 100 columns. Each cell in the grid contains a Braille character, which is a pattern of dots (1-6) arranged in a 2x3 grid. The characters are distributed across the grid in a way that suggests a structured layout, possibly representing a specific Braille text or a pattern of characters. The grid is composed of 20 rows and 100 columns, totaling 2000 cells.
