

The image displays a 16x16 grid of 256 small clusters of black dots on a white background. Each cluster is a unique arrangement of dots, representing a specific 16-bit binary value. The clusters are organized into four groups of four rows each, corresponding to the hexadecimal digits 0-3, 4-7, 8-B, and C-F. The first group (0-3) is on the left, the second (4-7) is on the right, and the third (8-B) is on the left and the fourth (C-F) is on the right.

[illegible]

A 3x3 grid of dots. The top row has three dots. The middle row has two dots, with the rightmost position empty. The bottom row has two dots, with the rightmost position empty.
