

A 20x20 grid of black dots on a white background. The dots are arranged in a sparse, irregular pattern that roughly forms a large, stylized letter 'A' or a similar abstract shape. The pattern is denser in the center and sparser towards the edges. The dots are small and black, set against a plain white background. The overall shape is roughly triangular, with a wider base and a narrower top. The dots are scattered within this triangular region, with some forming solid lines and others being isolated. The pattern is symmetrical about a vertical axis. The dots are arranged in a way that suggests a digital or pixelated representation of a continuous shape. The grid is 20 units wide and 20 units high. The dots are located at various coordinates within this grid, creating the overall shape. The pattern is most prominent in the center, where the dots are more closely packed together. The edges of the shape are irregular, with some dots missing or extra, giving it a hand-drawn or digital-art feel. The overall impression is one of a complex, yet structured, arrangement of points in space. The shape is reminiscent of a stylized 'A' or a similar character, but it is not perfectly formed, with some areas being more solid than others. The dots are arranged in a way that suggests a digital or pixelated representation of a continuous shape. The grid is 20 units wide and 20 units high. The dots are located at various coordinates within this grid, creating the overall shape. The pattern is most prominent in the center, where the dots are more closely packed together.
