

The image displays a 10x10 grid of 100 small clusters of black dots on a white background. Each cluster is a unique arrangement of dots, representing a different number from 0 to 99. The clusters are arranged in rows and columns, with the first row containing clusters for numbers 0-9 and the second row containing clusters for numbers 10-19, and so on. The clusters are arranged in a way that they are easy to distinguish from each other, and they are arranged in a way that they are easy to read.

[illegible]

A 3x3 grid of dots. The top row has three dots. The middle row has two dots, with the rightmost position empty. The bottom row has two dots, with the rightmost position empty.

The image displays a 3x10 grid of 30 unique dot patterns. Each pattern is a 10-bit binary code represented by a 5x5 grid of dots. The patterns are arranged in three rows of ten. The first row has a small cluster of four dots at the top left. The second row has a small cluster of four dots at the top left. The third row has a small cluster of four dots at the top left.
