

The figure consists of 10 diagrams arranged in two rows of five. Each diagram shows a grid of dots, with some dots being black and others white. The pattern of black dots evolves from left to right. In the first diagram, there is a small cluster of black dots. As the sequence progresses, the cluster grows and becomes more complex, eventually forming a large, stylized shape that resembles a comb or a stylized letter 'E'. The black dots are concentrated in the center, with white dots filling the surrounding space.

The figure consists of 10 diagrams arranged in two rows of five. Each diagram shows a pattern of black dots on a grid. The pattern starts as a small cluster of dots in the first diagram and grows into a larger, more complex shape in the tenth diagram. The growth is characterized by the addition of new dots to the existing pattern, creating a series of connected shapes.

[illegible][illegible][illegible]

The figure consists of 10 diagrams arranged horizontally, each showing a pattern of black dots on a grid. The patterns evolve from left to right. The first diagram has 4 dots. The second has 6 dots. The third has 7 dots. The fourth has 9 dots. The fifth has 11 dots. The sixth has 13 dots. The seventh has 15 dots. The eighth has 17 dots. The ninth has 19 dots. The tenth has 21 dots. The patterns are roughly rectangular, with some internal structure that becomes more complex over time.

[illegible]

A 3x3 grid of dots. The dots are located at the following positions (row, column): (1,1), (1,2), (1,3), (2,1), (2,2), (2,3), (3,1), (3,2), (3,3).
