

The figure consists of two rows of five diagrams each, labeled 1 through 10. Each diagram shows a pattern of black dots on a grid. The patterns are arranged in two rows of five. The top row shows a progression from a small cluster to a more complex shape. The bottom row shows a progression from a small cluster to a more complex shape. The patterns are labeled 1 through 10.

The figure consists of 10 small diagrams arranged horizontally, each showing a pattern of black dots on a white background. The patterns evolve from left to right. The first diagram has 2 dots. The second has 5 dots. The third has 6 dots. The fourth has 8 dots. The fifth has 10 dots. The sixth has 12 dots. The seventh has 14 dots. The eighth has 16 dots. The ninth has 18 dots. The tenth has 20 dots. The patterns are roughly rectangular and become more complex and branched as the number of dots increases.

A 3x3 grid of dots. The top row has two dots. The middle row has two dots. The bottom row has one dot on the left, and the right position is empty.
