

[illegible]

Figure 1 displays a sequence of 30 small diagrams arranged in a 3x10 grid, illustrating the evolution of a pattern of black dots on a white background. The diagrams are organized into three rows and ten columns. The first row shows the initial pattern and its first nine iterations. The second row shows the next nine iterations. The third row shows the final nine iterations. The pattern evolves from a simple 2x2 grid to a complex, fractal-like structure.
