

The image displays a 3x10 grid of 30 small dot patterns, each representing a unique 10-bit binary code. The patterns are arranged in three rows of ten. The first row has a single dot at the top-left position. The second row has two dots at the top-left and top-right positions. The third row has two dots at the top-left and middle-left positions. Each pattern is a unique combination of these three dot positions across the 10 columns.

A 7x10 grid of 70 small clusters of black dots. Each cluster is a unique arrangement of dots, creating a variety of shapes and patterns. The clusters are arranged in a grid that roughly resembles the shape of the letter 'A'.
