

The image displays a 10x10 grid of 100 small dot patterns. Each pattern is a 10x10 grid of dots, where each dot is either present (1) or absent (0). The patterns are arranged in a grid where each row and column contains all possible combinations of the 10 bits. This is a visual representation of a 10-bit binary space, where each small dot pattern corresponds to a unique 10-bit binary number.
