

The image displays a 100x100 grid of dots. Each dot in the grid is replaced by a small, irregular cluster of dots, creating a complex, fractal-like pattern. The clusters vary in size and shape, with some being simple 2x2 squares and others being more intricate, branching structures. The overall effect is a dense, textured field of dots that resembles a digital representation of a natural, organic growth pattern.

A 3x3 grid of dots. The top row has dots in the second, third, and fourth columns. The middle row has a dot in the second column. The bottom row has dots in the first and second columns.
