

The image displays a 5x5 grid of 25 abstract patterns, each composed of black dots on a white background. These patterns represent different classes of handwritten digits, likely generated by a generative model. The patterns vary in complexity and shape, showing a range of digit-like forms from simple strokes to more intricate, multi-part structures.

A 3x3 grid of dots. The top row has two dots. The middle row has three dots. The bottom row has two dots, with the leftmost position being empty.
