

A 10x10 grid of 100 small clusters of black dots, each cluster representing a different number from 0 to 99. The clusters are arranged in a grid where the first column shows numbers 0-9, the second column shows 10-19, and so on, up to the tenth column showing 90-99. Each cluster is a unique pattern of dots, with some numbers having a single dot and others having many dots in various arrangements.

The image displays a 15x15 grid of 225 small clusters of black dots. Each cluster represents a unique arrangement of 15 dots. The clusters are arranged in a grid where each row and column contains 15 unique patterns. The patterns vary in complexity, from simple linear arrangements to more complex geometric shapes. The dots are black and the background is white.
