

A 20x20 grid of black dots on a white background. The dots are arranged in a sparse, irregular pattern that forms a large, stylized letter 'A' shape. The 'A' is composed of several vertical and diagonal lines of dots, with some horizontal crossbars. The overall effect is a minimalist, pixelated representation of the letter 'A'.

The image shows three distinct dot patterns. The first pattern consists of 5 dots arranged in a cross shape. The second pattern consists of 6 dots arranged in a 2x3 grid. The third pattern consists of 7 dots arranged in a 3x3 grid with the center dot missing.

A 3x3 grid of dots. The top row has two dots. The middle row has two dots. The bottom row has one dot on the left and one dot on the right, with the center position empty.

The image displays a 100x100 grid of dots, where each dot represents a non-zero element in a matrix. The distribution of dots is sparse, with a clear pattern of higher density along the main diagonal and some off-diagonal blocks, suggesting a banded or block-like structure. The dots are arranged in a way that is visually appealing and easy to interpret, with a clear pattern of higher density along the main diagonal and some off-diagonal blocks.
