

A 10x10 grid of 100 small clusters of black dots, each cluster representing a different number from 0 to 99. The clusters are arranged in a grid where the first column shows numbers 0-9, the second column 10-19, and so on, up to the tenth column showing 90-99. Each cluster is a unique pattern of dots, with some numbers having a single dot and others having many dots in various arrangements.

The image displays a 20x100 grid of black dots on a white background. The dots are arranged in a pattern that resembles a sparse, noisy version of a 10x10 grid. The dots are concentrated in the first 10 columns and the first 10 rows, with some dots scattered in the remaining columns and rows. The pattern is irregular and noisy, with many missing dots.
