

The image displays a 10x10 grid of Braille musical notation. Each cell contains a unique Braille pattern representing a specific musical note or symbol. The patterns are organized into rows and columns, with the first row containing the first 10 notes and the last row containing the last 10 notes. The notes are represented by various Braille patterns, including single notes, beamed notes, and rests.

The image shows three distinct dot patterns arranged horizontally. The first pattern on the left consists of 10 dots arranged to form the number '1'. The middle pattern consists of 10 dots arranged to form the number '2'. The third pattern on the right consists of 10 dots arranged to form the number '3'.

A 4x10 grid of 40 small clusters of black dots. Each cluster is a unique arrangement of dots, ranging from a single dot to a small group of up to 10 dots. The patterns are abstract and vary significantly in shape and size across the grid.
