A 10x10 grid of 100 small dot patterns, each representing a unique combination of 10 binary digits (0s and 1s). The patterns are arranged in 10 rows and 10 columns, with each row containing 10 patterns and each column containing 10 patterns. The patterns are created by placing black dots on a white background, with the number of dots in each row and column corresponding to the binary value of the digit.
