

The image displays a 10x100 grid of Braille characters. Each row is identified by a single Braille character in the left margin. The grid contains a variety of Braille patterns, including simple dots, complex figures, and some that resemble letters or numbers. The patterns are arranged in a regular grid, with each row containing 100 characters and each column containing 10 characters.

The image displays a 20x20 grid of black dots on a white background. The dots are arranged in a pattern that suggests a banded structure, with higher density along the main diagonal and some off-diagonal elements, particularly in the lower-left and upper-right quadrants. The overall shape is roughly rectangular, with some missing dots in the top-right corner.
