

The image displays a 20x20 grid of black dots on a white background. The dots are arranged in a pattern that suggests a banded structure, with higher density along the main diagonal and some off-diagonal elements, particularly in the lower half of the matrix. The overall appearance is that of a sparse matrix visualization, where each dot represents a non-zero entry in a 20x20 matrix.

The image displays a 12x12 grid of black dots on a white background. The dots are arranged in a pattern that suggests a banded or block-like structure, with some non-zero entries scattered throughout the grid. The distribution of dots is sparse, with many empty cells, indicating a sparse matrix representation. The dots are arranged in a way that suggests a banded or block-like structure, with some non-zero entries scattered throughout the grid.
