

A large grid of 100 rows and 100 columns of black dots on a white background. The dots are arranged in a sparse, irregular pattern, with some rows having more dots than others. The dots are small and black, and the background is white. The pattern is dense in some areas and sparse in others, creating a complex, abstract visual structure.

The image displays a 20x20 grid of 400 small clusters of black dots. Each cluster represents a number from 0 to 9, arranged in a 4x5 grid. The clusters are as follows:

Row	Col 1	Col 2	Col 3	Col 4	Col 5
1	0	1	2	3	4
2	5	6	7	8	9
3	0	1	2	3	4
4	5	6	7	8	9
5	0	1	2	3	4
6	5	6	7	8	9
7	0	1	2	3	4
8	5	6	7	8	9
9	0	1	2	3	4
10	5	6	7	8	9
11	0	1	2	3	4
12	5	6	7	8	9
13	0	1	2	3	4
14	5	6	7	8	9
15	0	1	2	3	4
16	5	6	7	8	9
17	0	1	2	3	4
18	5	6	7	8	9
19	0	1	2	3	4
20	5	6	7	8	9

The figure displays 10 diagrams of dot patterns arranged in two rows of five. The top row shows a progression from a single dot (1) to a more complex shape (5). The bottom row shows a progression from a single dot (6) to a more complex shape (10). The patterns are labeled 1 through 10.

The figure consists of 10 sub-diagrams arranged horizontally, each showing a set of black dots on a grid. The dots represent the state of a system at discrete time steps. The pattern begins as a small, compact group of dots on the left and progressively expands to the right, forming a long, horizontal structure with some internal complexity and irregular edges by the final diagram on the right.

The figure consists of 10 diagrams arranged in two rows of five. Each diagram shows a pattern of black dots on a grid. The pattern starts as a small cluster of dots in the first diagram and grows into a complex, branching structure by the tenth diagram. The dots are arranged in a way that suggests a sequence of steps or a process of growth.

[illegible][illegible]

The sequence of diagrams illustrates the construction of the number 10 using dot patterns:

- 1 dot
- 2 dots (horizontal)
- 3 dots (triangle)
- 4 dots (square)
- 5 dots (pentagon)
- 6 dots (two rows of 2 and 4)
- 7 dots (two rows of 3 and 4)
- 8 dots (two rows of 4 and 4)
- 9 dots (two rows of 5 and 4)
- 10 dots (two rows of 5 and 5)

Age Group	Male (Black Dots)	Female (White Dots)
18-24	10	10
25-34	15	15
35-44	20	20
45-54	25	25
55-64	30	30
65-74	40	40
75-84	35	35
85+	20	20

A 3x3 grid of dots. The top row has two dots in the first and second positions. The middle row has one dot in the first position. The bottom row has two dots in the first and second positions. The dot in the top-right position (row 1, column 3) is missing.
