

A 10x10 grid of 100 small clusters of black dots, each cluster representing a different number from 0 to 99. The clusters are arranged in a grid where the first row shows numbers 0-9, the second row 10-19, and so on, up to the tenth row showing 90-99. Each cluster is a unique pattern of dots, with the number of dots corresponding to the value it represents.

The image displays a 100x100 grid of dots, representing a matrix. The dots are arranged in a pattern that suggests a sparse matrix, with many empty cells and some filled cells. The pattern is not uniform, with some rows and columns having more dots than others. The dots are small black circles on a white background.
