

The image displays a 100x100 grid of dots, where each dot represents an element in a matrix. The dots are arranged in a pattern that suggests a sparse matrix, with many empty cells and some clusters of dots. The pattern is not uniform, with some rows and columns having more dots than others. The dots are small and black, set against a white background.

The image displays a 10x10 grid of 100 small dot patterns. Each pattern is a unique combination of 10 binary digits (0 or 1). The patterns are arranged in 10 rows and 10 columns, with each row containing 10 patterns and each column containing 10 patterns. The patterns are created by placing black dots on a white background, with the number of dots in each pattern corresponding to the binary value of the digit it represents. The patterns are arranged in a way that each row and column contains a unique set of patterns, ensuring that no two patterns are identical.

A 3x10 grid of dots. The first column has 3 dots. The second column has 2 dots. The third column has 1 dot. The fourth column has 2 dots. The fifth column has 3 dots. The sixth column has 2 dots. The seventh column has 1 dot. The eighth column has 2 dots. The ninth column has 3 dots. The tenth column has 2 dots. The dots are arranged to form a stylized number '3'.
