

The image displays a 10x10 grid of 100 small dot patterns. Each pattern is a 10x10 grid of dots, where each dot is either present (1) or absent (0). The patterns are arranged in rows and columns, with the first row starting with a single dot in the top-left corner and the last row ending with a full 10x10 grid of dots in the bottom-right corner. The patterns are arranged in a way that they represent all possible combinations of 10 binary digits, from 0000000000 to 1111111111.
