

[illegible]

A 6x6 grid of 36 small clusters of black dots, each forming a different pattern. The patterns are arranged in a grid that is 6 rows high and 6 columns wide. The patterns vary in complexity and shape, including simple lines, squares, and more intricate arrangements.

A 4x10 grid of 40 small black dots. The dots are arranged in a pattern that resembles a stylized 'A' or a similar character. The first row has 10 dots, the second row has 10 dots, the third row has 10 dots, and the fourth row has 10 dots. The dots are arranged in a way that they form a shape that is wider at the top and bottom and narrower in the middle.

A 4x10 grid of 40 small clusters of black dots, each forming a different abstract pattern. The patterns vary in complexity, from simple groups of 3 dots to more intricate arrangements of up to 12 dots.

A 3x3 grid of dots. The top row has three dots. The middle row has two dots, with the rightmost position empty. The bottom row has two dots, with the leftmost position empty.

The image displays a 16x16 grid of 256 small, stylized human figures. Each figure is composed of black dots on a white background, forming a simplified silhouette of a person with arms and legs. The figures are arranged in a regular grid pattern, with each figure occupying a small square cell. The overall effect is a dense, textured field of human shapes.

A 7x10 grid of 70 small clusters of black dots, each cluster representing a different number from 0 to 69. The clusters are arranged in rows and columns, with some numbers appearing multiple times in different positions. The dots are black and the background is white.

The figure consists of 10 sub-diagrams arranged in a single row, each showing a pattern of black dots on a grid. The patterns evolve from left to right, starting with a small cluster of dots and growing into a more complex, branching structure.

A 4x10 grid of 40 small clusters of black dots. Each cluster represents a unique pattern of dots, ranging from simple groups of 2-4 dots to more complex arrangements of up to 12 dots. The patterns are distributed across the grid, with some appearing multiple times and others being unique.
