

The image displays a 15x15 grid of black dots on a white background. The dots are arranged in a pattern that suggests a banded structure, with higher density along the main diagonal and some off-diagonal elements, particularly in the lower right quadrant. The overall distribution is sparse, with many empty cells in the grid.

A 4x10 grid of 40 small clusters of black dots, each forming a different abstract pattern. The patterns vary in complexity, from simple pairs of dots to dense, interconnected groups.

A 12x12 grid of 144 small clusters of black dots. Each cluster represents a different arrangement of 12 dots. The clusters are arranged in a grid that is 12 units wide and 12 units high. The dots are black and the background is white.

| Number of books read | Number of students |
|----------------------|--------------------|
| 1                    | 3                  |
| 2                    | 4                  |
| 3                    | 2                  |
| 4                    | 1                  |
| 5                    | 2                  |
| 6                    | 3                  |
| 7                    | 1                  |
| 8                    | 2                  |
| 9                    | 1                  |
