

The image displays a 100x100 grid of black dots on a white background. The dots are arranged in a sparse, irregular pattern, with some rows containing more dots than others. The overall distribution of dots is non-uniform, suggesting a complex, non-random structure. The dots are arranged in a way that suggests a specific data set or a visual encoding of information.

The image displays a 15x15 grid of black dots on a white background. The dots are arranged in a pattern that suggests a banded structure, with higher density along the main diagonal and some off-diagonal elements, particularly in the lower-left and upper-right quadrants. The overall appearance is that of a sparse matrix visualization, possibly representing a discretized differential operator or a similar mathematical structure.

A 3x3 grid of dots. The top row has three dots. The middle row has two dots, with the rightmost position empty. The bottom row has two dots, with the leftmost position empty.
