

The image displays a large, rectangular grid of black dots on a white background. The dots are arranged in a pattern that resembles a sparse matrix or a stylized letter 'A' composed of many small clusters. The dots are arranged in a grid-like pattern, with some clusters being more dense than others. The overall shape is roughly rectangular, with a slight indentation on the left side. The dots are arranged in a way that suggests a large, multi-dimensional space or a complex data structure.

A 7x10 grid of 70 small clusters of black dots. Each cluster is a unique arrangement of 1 to 10 dots, forming various abstract shapes. The dots are small black circles, and the background is white. The shapes are arranged in a regular grid pattern, with each shape occupying a single cell in the 7x10 grid.

A 7x10 grid of 70 small clusters of black dots. Each cluster is a unique arrangement of 1 to 10 dots, forming various abstract shapes. The dots are small black circles, and the background is white. The image displays a 12x12 grid of black dots on a white background. The dots are arranged in a pattern that suggests a banded structure, with higher density along the main diagonal and some off-diagonal elements, particularly in the lower-left and upper-right quadrants. There are also isolated dots in the top-left and bottom-left corners.

A 7x10 grid of 70 small clusters of black dots, each representing a different number from 0 to 69. The clusters are arranged in rows and columns, with some numbers appearing multiple times in different positions. The dots are black and the background is white.
