

The image displays a 100x100 grid of dots. Each dot in the grid is replaced by a small, irregular cluster of dots. These clusters vary significantly in size and shape, ranging from a single dot to a small group of up to 10 dots. The overall effect is a complex, fractal-like pattern that resembles a noisy or distorted version of the original grid. The clusters are distributed across the entire grid, with some areas appearing denser than others. The pattern is symmetric about the center of the grid.

A 3x3 grid of dots forming a triangle. The top row has 2 dots, the middle row has 2 dots, and the bottom row has 2 dots.
