

This image displays a 10x10 grid of 100 Braille characters. Each character is a unique pattern of dots on a 6-dot grid, representing a specific Braille cell. The characters are arranged in a regular, repeating pattern across the entire grid.

A 20x20 grid of black dots on a white background. The dots are arranged in a pattern that suggests a banded or block-like structure, with some rows and columns having more dots than others. The dots are small and black, and the grid is perfectly square.

A 3x3 grid of dots. The top row has two dots, the middle row has two dots, and the bottom row has two dots. The dot in the top-right position is missing.
