

A 4x10 grid of 40 small clusters of black dots, each forming a different abstract pattern. The patterns vary in complexity, from simple pairs or small groups to more intricate, interconnected shapes.

The image displays a 20x20 grid of black dots on a white background. The dots are arranged in a sparse, abstract pattern, resembling a fragmented grid or a sparse matrix. The pattern is denser in some areas and sparser in others, with some rows having more dots than others. The dots are arranged in a way that suggests a grid, but with many missing dots, creating a fragmented appearance. The pattern is denser in some areas and sparser in others, with some rows having more dots than others.

The image displays a 5x5 grid of 25 distinct dot patterns. Each pattern is composed of 10 dots arranged in various configurations. The patterns are organized into five rows, each beginning with a small 2x2 dot cluster. The patterns vary in complexity and shape, including simple lines, crosses, and more intricate geometric forms.
