

The image displays a 10x10 grid of 100 small dot patterns. Each pattern is a unique 10-bit binary code, represented by a 5x2 grid of dots. The patterns are arranged in rows and columns, with some rows having a small cluster of dots to the left of the main grid. The patterns are arranged in a way that they can be read as a sequence of 100 bits, from top-left to bottom-right.
