

The image displays a 10x10 grid of 100 unique dot patterns, each representing a digit from 0 to 9. The patterns are arranged in 10 rows and 10 columns. Each pattern is a collection of black dots on a white background, forming a unique shape for each digit. The patterns are designed to be easily distinguishable from each other, even when viewed in a grid.

The image displays a 15x15 grid of black dots on a white background. The dots are arranged in a pattern that suggests a banded structure, with higher density along the main diagonal and some off-diagonal elements, particularly in the lower right quadrant. The overall appearance is that of a sparse matrix visualization, possibly representing a discretized differential operator or a similar mathematical structure.

A 3x3 grid of dots. The top row has two dots, the middle row has two dots, and the bottom row has two dots. The dot in the bottom-left position is missing, leaving a gap.
