

Figure 1 shows a 2x12 grid of dot patterns. The top row contains patterns for digits 0 through 9, followed by symbols #, %, and *. The bottom row contains patterns for digits 1 through 9, followed by symbols #, %, and *. Each pattern is a unique arrangement of dots on a 2x12 grid.

A large grid of 100 dots arranged in 10 rows and 10 columns, used for a dot-marker activity.

|---|---|---|---|---|---|---|---|---|---|
| 0 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| 0 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |

The image displays a 10x10 grid of 100 small dot patterns. Each pattern is a unique combination of 10 binary digits (0s and 1s), arranged in a 2x5 grid of dots. The patterns are organized into 10 rows and 10 columns, with each row and column containing a different set of patterns. The patterns are arranged in a way that they can be read as a sequence of 100 binary digits, which can be converted into a decimal number. The patterns are arranged in a way that they can be read as a sequence of 100 binary digits, which can be converted into a decimal number. The patterns are arranged in a way that they can be read as a sequence of 100 binary digits, which can be converted into a decimal number.

A 20x20 grid of black dots on a white background. The dots are arranged in a pattern that suggests a banded or block-like structure, with some rows and columns having more dots than others. The dots are small and black, and the grid is square.

A large grid of 100 rows and 100 columns of black dots on a white background. The dots are arranged in a sparse, irregular pattern, with some rows having more dots than others. The dots are small and black, and the background is white. The pattern is dense in some areas and sparse in others, creating a complex, abstract visual structure.
