

The image displays a 10x10 grid of 100 small dot patterns. Each pattern is a unique combination of 10 binary digits (0s and 1s), represented by the presence or absence of a dot at a specific position within a 10x10 grid of possible dot locations. The patterns are arranged in rows and columns, with each row containing 10 patterns and each column containing 10 patterns. The patterns are created by placing dots at specific positions within a 10x10 grid of possible dot locations.
